urology journal <urol\_j@unrc.ir>  
Kime: fatihbuyukcam@gmail.com

30 Kasım 2013 08:18

Dear Dr Büyükcaml,

We would like to invite you to review the manuscript entitled "**Diagnosis and treatment of acute urogenital and genitalia tract traumas: 10-year clinical experience**", which was submitted as "**Original Article**" to Urology Journal. I hope that you will kindly consider undertaking this peer review for us. Attached please find the manuscript.

It would be appreciated if you would send your comments within **2weeks** from receiving this email. However, if you need more time or you cannot take this task, please inform us by replying this email.

Since the online submission system of the Urology Journal is temporarily inactive, I would be grateful if you just send your comments via email and mention at the end what your final comment is (acceptable/needs minor revisions/needs major revisions/not acceptable).

Thank you for considering this request.

M.R. Safarinejad M.D

Professor of Urology

Associate Editor Of Urology Journal
